

Crucial Accountability

Improve accountability, execution, and performance.

Program Details

A culture with weak accountability is one where those who see problems say nothing because they assume, they don't have the authority or skills to raise a concern. Research shows when people see accountability as "someone else's job" they waste time, resources, and morale—specifically, employees waste \$1,500 and an eight-hour workday for every accountability discussion they avoid. These costs skyrocket when you consider that 95 percent of a company's workforce struggles to hold their colleagues accountable.

Crucial Accountability is a course that teaches a step-by-step process for enhancing accountability, improving performance, and ensuring execution. By learning how to talk about violated expectations in a way that solves problems while improving relationships, you'll improve individual, team, and organizational effectiveness.
