

Networking Skills

Why is Networking Important?

Program Details

The purpose of networking is to build quality relationships with a number of contacts who may be able to help with your career now or at some future date; and vice versa. Your network should be made up of people with whom you have a genuine connection.

The goal of this session is to showcase the different ways to network but also the importance of nurturing your network, to stay in touch, even when you don't need help, an introduction or a referral. If not, they won't be there when you do need them.

Training Length

1 – 1.5 Hours
